 Resume

System Task - DCKAP

Create a web page that takes a full path to a folder as a parameter and outputs the HTML for an unordered list of all the files in that folder. The filenames should link to the files themselves, and before every filename, you should display an appropriate icon based on the file extension. You may use the icons from here <https://fontawesome.com/v4.7.0/icons/#file-type> You may assume that every file extension has an icon.

Enter your Folder's Path

*

SHOW CONTENTS

Folder Contains :

Assumptions & Constraints

- **File Types**
 - doc, txt, xlsx, csv, folder, jpeg, jpg, png, pdf, cpp, html, js, py
 - similar type of extensions have same logo
- **Nested folders/files are not displayed**
- **This is a single Page, no rendering assumed.**
